Reports

- The Assessment Content Report was modified to include a prompt for vacancy number, a column for vacancy number in the report output, and modify formatting for the PDF output option to use landscape orientation to improve readability. This report provides information about the content of an assessment, including screen-out criteria, competency data, and item information.
 - Location: Team Content > USA Staffing Packages and Folders > Staffing Reports > Staffing > Assessment

Hiring Data Warehouse

The Reporting and Analytics team has been working on creating the foundation for the new Hiring Data Warehouse. While the work is not yet visible to customers, it is critical this work be completed first to ensure quality and accuracy of the data. Below are examples of the key activities in completed and in progress:

- Developed and tested a prototype for a more efficient method of applying organization and office security in Cognos.
- Designed and built tables within the data warehouse, including tables for the areas listed below. Next steps involve testing the tables and developing the Cognos model to make the data available for reporting.
