USA Staffing

Reporting and Analytics Release Notes

Stage Release Date: June 28, 2023

Production Release Date: July 5, 2023

Reporting and Analytics

Hiring Data Warehouse

- New Hires folder
  - New Hire Information sub-folder
    - New Hire Position query subject: the supervisor/manager email address was added, allowing differentiation between identical or similar supervisor/manager names.
      - 'Supervisor/Manager Email': The email address of the supervisor or manager of the new hire.
- Vacancies folder
  - JOA Review Information sub-folder
    - JOA Reviewer Assignments query subject: JOA reviewer assignment query items were added to allow reporting on JOA assignments and details.
      - 'JOA Reviewer Assignment': The item (e.g., assessment, announcement text, announcement questionnaire) for review by a reviewer.
      - 'JOA Reviewer Assignment Completion Date/Time': The date/time a Job Opportunity Announcement (JOA) review assignment was completed by a reviewer.
      - 'JOA Reviewer Assignment Permissions': The capabilities of a reviewer on a Job Opportunity Announcement (JOA) review assignment (e.g., view only, text changes and comments).
      - 'JOA Reviewer Assignment Status': The approval status (e.g., Incomplete, Approved, Approved Pending Changes, Rejected) marked by a reviewer on a Job Opportunity

Reports

- **Staffing Process Tracking Report**: The Staffing Process Tracking Report was modified to allow optional filtering of results by Request Customer Name from the prompt page. The report displays request, vacancy, announcement, and certificate numbers as well as certificate review data and milestone dates in the staffing process for New Vacancy and Additional Selection requests.

  - Team Content > USA Staffing Packages and Folders > Hiring Data Warehouse > Request

USA Staffing Data APIs

The USA Staffing Data API team continues to add to the APIs available to pull bulk data sets from USA Staffing. For detailed information about each API. Including data definitions, visit https://developer.usastaffing.gov.

- **Reviews API:** The Reviews API was updated to include two new endpoints. Reviews/reviewers returns sub-entity data for all records related to reviewers sorted by dwLastModifiedDateTime descending. Reviews/documents returns sub-entity data for all records related to documents sorted by dwLastModifiedDateTime descending.

- **AFD Announcements API:** The AFD Announcements API was updated to use a fixed snapshot string determining which database snapshot the API will query against. The new snapshot value rotates between SS1 and SS10.

- **Assessments API:** The Assessments API was updated to use a fixed snapshot string determining which database snapshot the API will query against. The new snapshot value rotates between SS1 and SS10.

- **Certificate Applications API:** The Certificate Applications API was updated to use a fixed snapshot string determining which database snapshot the API will query against. The new snapshot value rotates between SS1 and SS10.

- **Certificates API:** The Certificates API was updated to use a fixed snapshot string determining which database snapshot the API will query against. The new snapshot value rotates between SS1 and SS10.

Survey

As we continue to transition to Power BI for reporting needs, our primary objective is to prioritize those that deliver the most valuable insights or are needed for critical business needs. Our aim is not only to evaluate the existing reports but also enhance them. With your help, we can prioritize analyzing the business questions and reports with the highest impact first.   Please take a moment to complete the following survey!
