

# USA Staffing® Reporting and Analytics Release Notes

Stage Release Date: December 13, 2023

Production Release Date: December 20, 2023

**OFFICIAL USE NOTICE:** This material is intended exclusively for use by USA Staffing Customers and is not to be distributed without approval from the USA Staffing Program Office. This communication may contain information that is proprietary, privileged or confidential or otherwise legally exempt from disclosure. If you have received this document in error, please notify the USA Staffing Program Office immediately and delete all copies of the presentation.

## Staffing Administration

### Organization Namespace

#### Organization Detail folder

**Customers query subject:** a new query item was added to enable reporting on whether a customer is retired.

- 'Customer Retired?': Flag indicating if the customer is marked as retired.

## Staffing Reports

### Tags Namespace

#### Tag Detail folder

**Tag query subject:** a new query item was added to enable reporting on whether a tag is retired.

- 'Tag Is Retired': Flag indicating if a tag is marked as retired.

## Cognos Reports

### Time to Hire Detail Report

The Time to Hire Detail Report was modified. The Time to Hire Detail Report displays detail level data on the milestones of the hiring process and the overall time to hire. The report was modified to include an additional column showing the Formal Offer Accepted Date.

- Team Content > USA Staffing Packages and Folders > Time to Hire

### Vacancy Overview Report

The Vacancy Overview Report was modified. The Vacancy Overview Report provides tabular data to display details about a vacancy, including the total number of applications received and number of applications by status. The report was modified to include a new column and optional prompt for telework eligible.

- Team Content > USA Staffing Packages and Folders > Hiring Data Warehouse > Vacancy

## USA Staffing Data APIs

### AFD Applications API

The AFD Applications API Locations sub-entity was updated to include an additional column for the announcement location label.

### Announcements API

The Announcements API was updated to include an additional column for appointment type override text.
