New Hire (End of Day)

- New Hires namespace
 - New Hire Detail folder
 - New Hire Notifications query subject: added a new query subject and fields to enable reporting on notifications sent to new hires.
 - 'New Hire Notification Sent Date/Time': The timestamp the notification was sent.
 - 'New Hire Notification Recipients': The e-mail addresses of all recipients of the notification.
 - 'New Hire Notification Sender': The name of the individual who sent the notification.
 - 'New Hire Notification Template': The name of the template used to send the new hire notification.
 - 'New Hire Notification Template Type': The type of template used to send the new hire notification (e.g., Tentative Offer).

Staffing Reports

- Applications namespace
 - Application Detail folder
 - Application query subject: a new query item was added to enable reporting on a unique database identifier that is included in the manual assessment import/export spreadsheet.
 - 'Application ID': database-level identifier associated with an application. This field is equivalent to the Application Number and is included in the manual assessment import/export spreadsheet.
 - Application CBP_DSS_EL query subject: this query subject is a specialized view to support CBP DSS reporting. New query items were added to enable reporting on additional application details.
 - 'Application Final Rating': the assessment transmuted rating rounded to the nearest whole number.
 - 'Application Grade': the grade level for which an application was submitted.
 - 'Application Originally Submitted Date/Time': the date/time an application was first submitted.
 - 'Application Rating Notification Message Code': the code indicating the type of notice of results (NOR) sent to the applicant.
 - 'Application USA Hire Completed Date/Time': the date/time an applicant completed the USA Hire assessment(s).
 - 'Certificate Issuer': the name of the individual that issued the certificate.
 - Application Ratings query subject: a new query item was added to enable reporting on a unique database identifier that is included in the manual assessment import/export spreadsheet.
 - 'Application Rating ID': database-level unique identifier associated with an application's rating for a specific rating combination. This field is included in the manual assessment import/export spreadsheet.
