# Hiring Data Warehouse
Selective Service Interconnection Reporting

What is the Selective Service Interconnection?

A connection between USA Staffing and the Selective Service System used to verify Selective Service Registration for new hires within USA Staffing. The goal of the Selective Service Interconnection is to reduce duplicate data entry and improve data quality and transparency.

Visit the Selective Service System Interconnection Frequently Asked Questions document on the Resources page of the USA Staffing Resource Center (https://help.usastaffing.gov/ResourceCenter/index.php/Resources) for additional information on the various task results associated with this task.

How can I report on Selective Service Verification?

Reporting on Selective Service Verification can be performed using existing data items within the Hiring Data Warehouse, however custom query items must be developed using onboarding task query items and new hire notes query items.

New Hire Number	New Hire Name	Selective Service Task Status	Selective Service Verification Status	Selective Service Notes	Selective Service Note Created By	Selective Service Note Created By User Type	Selective Service Note Created Date/Time
H12SL-FQXR	Matthew Bernardy	Active	Not Verified				
H135R-GJJ1	David Zhang	Complete	Verified	Selective Service System Note: Selective Service Number: 0002275246; Accession Date: 3/3/2018	Amanda Slade	Human Resources User	Jul 12, 2022 3:42:28 PM
H17WJ-GYA6	Daniel Molina	Cancelled	Not Verified				
H188M-DY95	ADRIAN HALIBURTON	Active	Not Verified				
H196O-KIWO	Jose Sebastian Linares	Complete	Error - See Notes		Susan Galvan	Human Resources User	Aug 10, 2022 9:20:22 AM
H1QOK-N5VI	Nataniel Vaca	Complete	Verified	Selective Service System Note: Selective Service Number: 0106381650; Accession Date: 7/9/2019	Amanda Slade	Human Resources User	Jul 18, 2022 3:46:08 PM
H1SZB-NACH	Nestor Batista	Complete	Verified	Selective Service System Note: Selective Service Number: 9602977556; Accession Date: 3/24/2014	Amanda Slade	Human Resources User	Aug 9, 2022 5:47:37 PM

Verify Selective Service System Registration Task Data

The status of verification can be tracked using query items in the Comprehensive Onboarding Tasks query subject. When limited or focused on the Onboarding Task Type of 'Verify Selective Service System Registration', these query items enable reporting on characteristics of the task, including but not limited to active date, completed date/time, due date, task status (active, pending, complete), and task result (verified, not verified, error – see notes, other – see notes).

Limiting or focusing the Onboarding Task Type can be accomplished using a case statement or if/then statement. Examples are provided below.

- Selective Service Task Status
    - Expression:
        Case
        when [Presentation View].[Comprehensive Onboarding Tasks].[Onboarding Task Type] = 'Verify Selective Service System Registration'
        then [Presentation View].[Comprehensive Onboarding Tasks].[Onboarding Task Status]
        else null
        end
    - Aggregation (Summary and Detail): Maximum

- Selective Service Verification Status
    - Expression:
        Case
        when [Presentation View].[Comprehensive Onboarding Tasks].[Onboarding Task Type] = 'Verify Selective Service System Registration'
        then [Presentation View].[Comprehensive Onboarding Tasks].[Onboarding Task Result]
        else null
        end
    - Aggregation (Summary and Detail): Maximum

Selective Service Verification Notes

When Selective Service registration has been verified or if an error result is returned, a note will be added to the new hire record to identify the Selective Service Number and Accession Date (verification) or provide additional instructions (error). Custom query items can be created using query items from the New Hire Notes query subject to report on the content of the note(s) as well as the date/time the note(s) was/were created.

- Selective Service Notes
    - Expression:
        Case
        when [Presentation View].[New Hire Notes].[New Hire Note] contains 'Selective Service'
        then [Presentation View].[New Hire Notes].[New Hire Note]
        else null
        end
    - Aggregation (Summary and Detail): Maximum

- Selective Service Note Created Date/Time
    - Expression:
        Case
        when [Presentation View].[New Hire Notes].[New Hire Note] contains 'Selective Service'
        then [Presentation View].[New Hire Notes].[New Hire Note Date/Time]
        else null
        end
    - Aggregation (Summary and Detail): Maximum
