Production Release Notes

Release 16.2

December 1, 2023

OFFICIAL USE NOTICE: This material is intended exclusively for use by USA Staffing Customers and is not to be distributed without approval from the USA Staffing Program Office. This communication may contain information that is proprietary, privileged, confidential, or otherwise legally exempt from disclosure. If you have received this document in error, please notify the USA Staffing Program Office immediately and delete all copies.

Completed System Functionality

The USA Staffing Release Notes provide an overview of the most recent functionality deployed to the USA Staffing Stage and Production environments. The  icon designates the completion of a feature previously defined in the Program Roadmap. To learn more about upcoming features and the release schedule for the USA Staffing Stage and Production environments, please visit the [USA Staffing Resource Center](#).

Staffing Functionality

Requests Dashboard

Modified the Requests Dashboard to no longer load results upon accessing the page. Users are now required to enter filter/search criteria for the system to retrieve results. This will significantly conserve system resources, especially when users access this tab solely to create a Request.

Added a *Request Process Owner* filter option and a column displaying the *Request Process Owner* in the results table.

<https://help.usastaffing.gov/USAS/index.php?title=Request>

Request

Added the user email address associated with a user account to the *Requester* and *Request Process Owner* dropdown lists to help users differentiate between accounts with the same name. Users can see this information by hovering over the username in the *Requester* and *Request Process Owner* dropdown lists on the Request Information page.

https://help.usastaffing.gov/USAS/index.php?title=Create_Request_Information

https://help.usastaffing.gov/USAS/index.php?title=Request_Information

Request Processing Interconnection

Modified the *Other Information* section displayed on requests created via the Request Processing Interconnection (RPI) to include the value for *Request Process Owner* from the RPI transmission. The value is not changed by any updates to the assigned *Request Process Owner* on the Request Information page.

The *Request Process Owner* value/email address will be displayed as transmitted and irrespective of any connection to a user account in USA Staffing. If no *Request Process Owner* value is transmitted, the field will display *No Request Process Owner received*.

https://help.usastaffing.gov/USAS/index.php?title=Other_Information

Vacancy

Added a *Candidate Inventory* system-level *Appointing Authority* tag to be used for identifying appropriate requests, vacancies, new hires, or position descriptions.

https://help.usastaffing.gov/USAS/index.php?title=Available_Tags#Available_System_Tags

Added a validation on the Vacancy Supporting Documents page to prevent HR users from requiring more than 15 supporting documents, which is the maximum number of documents applicants can submit in their online application. The *Required* checkbox will be grayed out once the fifteenth required document is selected and the following warning message will display: “*Applicants may not submit more than 15 documents with their online application. This vacancy has reached the maximum amount of required supporting documents.*” **Note:** Since there may be vacancies currently requiring more than the limit, existing vacancies will display the following error message: “*Applicants may not submit more than 15 documents with their online application. Please revise the required supporting documents to proceed.*”

https://help.usastaffing.gov/USAS/index.php?title=Vacancy_-_Supporting_Documents

Announcement

Added the ability to *Apply Locations Bundles* from the gear icon in the Announcement Location page. Locations added to the announcement from a bundle can subsequently be modified or deleted as needed. All changes are captured in *History* after the announcement has been released with a future open date.

https://help.usastaffing.gov/USAS/index.php?title=Adding_a_location_bundle

Applicant Overview

Applicant Record

Added an *Inventory* indicator on the applicant record's page header to identify applicants who opted to have their application shared in the Candidate Inventory and are currently available on at least one certificate in Candidate Inventory.

<https://help.usastaffing.gov/USAS/index.php?title=Applicant>

Added an *Inventory* indicator on the applicant's Referral History to identify each certificate that is currently making the applicant available in the Candidate Inventory.

https://help.usastaffing.gov/USAS/index.php?title=Applicant_Information

Stored List

Added the *Augmented Rating* to the list of includable data options for all assessment types when exporting a *Stored List*.

https://help.usastaffing.gov/USAS/index.php?title=Exporting_applicant_data_to_an_Excel_file

Certificates

Updated the *Select All* checkbox on the Applicant List page to only select all filtered applicants to enable users to easily work with different subsets of applicants within one certificate.

https://help.usastaffing.gov/USAS/index.php?title=Applicant_List

New Hire

The following forms have been added in USA Staffing:

- Census Term - Acceptance of Term Appointment
- Census VRA - Acceptance of VRA Permanent Appointment
- Census Temp - Acceptance of Temporary Appointment
- Census Sch A - Acceptance of Schedule A Permanent Appointment
- DISA COE - DISA Conditions of Employment Acknowledgement

Hiring Manager Functionality

No updates.

Administrative Functionality

Permissions

Created the following permissions for Locations Bundles:

- *View Locations Bundles* – Enables user to view a list of locations bundles within the library. This permission is enabled by default for the Office Administrator, Standard HR User, HR Assistant, and HR View Only system-level permission profiles.
- *Create/Edit Locations Bundles* – Enables a user to create or edit a locations bundle within the library. This permission is enabled by default for the Office Administrator system-level permission profile only.
- *Delete Locations Bundles* – Enables a user to delete a locations bundle from the library. This permission is enabled by default for the Office Administrator system-level permission profile only. **Note:** Existing Custom-level permission profiles will have all three permissions disabled by default. However, new Custom-level permission profiles will have all three of these permissions enabled by default.

https://help.usastaffing.gov/USAS/index.php?title=Manage_Permission_Profiles

https://help.usastaffing.gov/USAS/index.php?title=Create_Permission_Profile

Locations Bundle Library

• Added a *Locations Bundle Library* under the Libraries section in the Admin area, which allows users with [*Locations Bundles permissions*](#) to create, edit, and delete a bundle including a group of locations, which can be applied to an [*Announcement*](#).

https://help.usastaffing.gov/USAS/index.php?title=Manage_Location_Bundles

https://help.usastaffing.gov/USAS/index.php?title=Edit_Locations_Bundle

https://help.usastaffing.gov/USAS/index.php?title=Creating_a_location_bundle

Vacancy Default Settings

Added a validation on the Vacancy Default Settings page to prevent Admin users from requiring more than 15 supporting documents for the selected *Office*. The *Required* checkbox will be grayed out once the fifteenth required document is selected and the following warning message will display: “*Applicants may not submit more than 15 documents with their online application. This office has reached the maximum amount of required supporting documents.*” **Note:** Since there may be offices currently requiring more than the limit, existing offices will display the following error message: “*Applicants may not submit more than 15 documents with their online application. Please revise the required supporting documents to proceed.*”

https://help.usastaffing.gov/USAS/index.php?title=Manage_Vacancy_Default_Settings

https://help.usastaffing.gov/USAS/index.php?title=Selecting_supporting_documents_settings

USA Hire Functionality

No updates.

Reporting and Analytics

Reporting and analytics enhancements can be reviewed in the Release Notes section of the [Reporting and Analytics](#) page on the [USA Staffing Resource Center](#).
