Request Events

Hiring Manager Request Events and Triggers

This document details all Hiring Manager Request Events which have predetermined logic (i.e., triggers) to automatically appear on the *Positions Being Filled* tile on the Hiring Manager dashboard. For each Hiring Action in *Positions Being Filled*, Hiring Managers will have the ability to see additional details by clicking *View Event Log* for each hiring action.

Note: For requests created prior to this feature's release, the following message will be displayed: "*The Request was created prior to event tracking. The event log will not contain entries for all events*."
