## Staffing Functionality

### Announcement

Added the *Financial Disclosure* and *Bargaining Unit Status* fields to the Overview section of the Announcement in alignment with USAJOBS.

### New Hire

Enabled auto-complete for the *Establish Projected Entry on Duty Date* task when the *Projected Entrance-On-Duty Date* is saved in the HR questionnaire. Note: If the date is later removed, the task will re-activate, and the previously saved completion date will be removed. If this task is assigned to the new hire record after the *Projected Entrance-On-Duty Date* has been saved, the *Establish Projected Entry on Duty Date* task will need to be completed manually.

Pre-populated the *County* and *Geo Locator Code* field values from the Request into the New Hire record.

The following forms have been added in USA Staffing:

- DS 7663 – Drug Testing Policy
- DS 7664 – Voluntary Separation Incentive Payments
- DS 7665 – Unemployment Insurance Benefits
- DS Insurance – Information on Insurance Benefits
- VA 20-0344 – Annual Certification of Veteran Status and Veteran-Relatives

## Hiring Manager Functionality

No updates.

## Administrative Functionality

### Permissions

Divided the *Create and Edit Requests* permission into two separate permissions for all permission profiles and user types. Any existing permission profile that has the *Create/ Edit Requests* permission enabled or disabled, will have both of the following permissions enabled or disabled accordingly.

- *Create Request* – Enables user to create a request.
- *Edit Request* – Enables user to edit an existing request.

### Workflows

Added the *Workflow ID* to the tab header to assist agencies using the Request Processing Interconnection in referencing workflows by ID on an RPI transmission for Additional Selection requests.

## USA Hire Functionality

No updates.

## Reporting and Analytics

Reporting and analytics enhancements can be reviewed on the Release Notes page of the [USA Staffing Data Resource Center](#).
