USA Staffing Data APIs

The USA Staffing Data API team continues to add to the APIs available to pull bulk data sets from USA Staffing. For detailed information about each API. Including data definitions, visit https://developer.usastaffing.gov.

- **AFD Applications API:** The AFD Applications API was updated to allow users to return a filtered list of records using startDate and endDate based on dwLastModifiedDateTime.

- **AFD Vacancy API:** The AFD Vacancy API was updated to allow users to return a filtered list of records using startDate and endDate based on dwLastModifiedDateTime.

- **Application Locations API Endpoint:** The Applications Locations API endpoint was updated to include a column for location label, which is the text description of the location for which an application was submitted.

- **Certificate Location API Endpoint:** The Certificate Location API endpoint was updated to include a column for location label, which is the text description of the location filter used to create a certificate.
