Reporting and Analytics

Hiring Data Warehouse

- Certificates folder
  - Certificate Filter Information sub-folder: a new query subject and associated query items were added to enable reporting on hurdle filters used to create a certificate.
    - Certificate Hurdle Filters query subject
      - 'Certificate Hurdle Filter Cutpoint': The numeric cutpoint applied when Hurdle Score or Hurdle Augmented Score is used as the hurdle filter type when creating a certificate.
      - 'Certificate Hurdle Filter Hurdle': The number and name of the hurdle being used for a hurdle filter used to create a certificate.
      - 'Certificate Hurdle Filter Name': The name of the hurdle filter used to create a certificate.
      - 'Certificate Hurdle Filter Type': The type of criteria (e.g., Hurdle Status, Hurdle Score, Hurdle Augmented Score) used to create a hurdle filter for a certificate.
      - 'Certificate Hurdle Filter Hurdle Status': The status of an application (e.g., Pending, Active, Complete, Inactive) for a specific hurdle in the assessment process used to create a hurdle filter for a certificate.
      - 'Certificate Hurdle Filter Rating Combination': The concatenated series-grade combination to which a hurdle filter applies.
- New Hires folder
  - Onboarding Forms and Documents sub-folder
    - Form Returned Reasons query subject
      - 'Form Returned Date/Time': The date/time the form was returned to the new hire for correction.
      - 'Form Returned Reason': The reason a form was returned to the new hire for correction (e.g., to correct first name, last name, phone numbers, date of birth).

Reports

- **MCO Staffing Resource Chart:** The MCO Staffing Resource Chart report was modified. This report displays time to hire in the format required by OPM for annual reporting. The report was modified to have the same look and feel of Hiring Data Warehouse and User License standard reports.
  - Team Content > USA Staffing Packages and Folders > Time to Hire

USA Staffing Data APIs

The USA Staffing Data API team continues to add to the APIs available to pull bulk data sets from USA Staffing. For detailed information about each API. Including data definitions, visit https://developer.usastaffing.gov.

- **Certificates API:** The Certificates API was updated to allow users to return a filtered list of records using startDate and endDate based on dwLastModifiedDateTime.

- **New Hires API:** The New Hires API was updated to allow users to return a filtered list of records using startDate and endDate based on dwLastModifiedDateTime.

- **Onboarding Tasks API:** The Onboarding Tasks API was updated to allow users to return a filtered list of records using startDate and endDate based on dwLastModifiedDateTime.

- **Requests API:** The Requests API was updated to allow users to return a filtered list of records using startDate and endDate based on dwLastModifiedDateTime.

- **Reviews API:** The Certificates API was updated to allow users to return a filtered list of records using startDate and endDate based on dwLastModifiedDateTime.
