Stage Release Notes

Release 16.4

January 12, 2024

OFFICIAL USE NOTICE: This material is intended exclusively for use by USA Staffing Customers and is not to be distributed without approval from the USA Staffing Program Office. This communication may contain information that is proprietary, privileged, confidential, or otherwise legally exempt from disclosure. If you have received this document in error, please notify the USA Staffing Program Office immediately and delete all copies.

Completed System Functionality

The USA Staffing Release Notes provide an overview of the most recent functionality deployed to the USA Staffing Stage and Production environments. The  icon designates the completion of a feature previously defined in the Program Roadmap. To learn more about upcoming features and the release schedule for the USA Staffing Stage and Production environments, please visit the [USA Staffing Resource Center](#).

Staffing Functionality

Dashboard

Tasks and New Hires

Added the ability to search *Task Owner* by email on the Tasks Dashboard and *Onboard Process Owner* by email on the New Hires Dashboard.

Request

Removed *Request Locations* from the Request Information page for approved and cancelled requests. This information can be reviewed or updated as needed on the *Location Information* tab.

Applicant Overview

Applicant Record

The following NOR message codes have been added:

Code	Definition	Message
IOEP	Exceeds page limit	You were not considered for this position because your Executive Core Qualifications (ECQ) and/or Mandatory Technical Qualifications (MTQ) exceeded the page limit specified in the job announcement.
ELSP	Referred to panel for qualifications determination	Your application has been submitted to the Executive Resources Board (ERB) or executive panel to determine your qualifications.

New Hire

Modified the timing of when the *Transmit Forms to eOPF* and *Transmit Documents to eOPF* tasks are assigned a due date. Once the new hire has been verified as arriving on duty, the due date of these tasks is set to 90 days after the new hire's start date. This helps ensure a due date for these tasks is not assigned prematurely for new hires with EOD dates well into the future.

Enabled users with *Delete Notes* permission to delete notes added by any user in the new hire record. **Note:** Previously, users were only able to delete their own notes. This permission is now consistent with how it works in the Vacancy/Applicant areas.

Added the ability to search and assign task owners by email on the New Hire Manage Tasks page.

Added the ability to search by email in the *Contacts* section of New Hire record.

Modified the various Country drop-down lists to display United States as the first option for improved usability for both HR/Onboarding users and New Hires.

The following form has been updated in USA Staffing:

- Tax MT – Montana Employee's Withholding and Exemption Certificate

Hiring Manager Functionality

No updates.

Administrative Functionality

Customers

Added the ability for users with *Add Customer to Office* or *Create/Edit Customer* permission to edit multiple customers at once. Users can export a Customer Maintenance File by selecting the checkbox next to each Customer Internal Name as appropriate (up to 500 customers) and clicking the *Export Selected Customers* button. The Customer Maintenance File includes editable fields and required validations. Users can then upload the file by selecting the *Import Customers* option from the gear icon.

USA Hire Functionality

No updates.

Reporting and Analytics

Reporting and analytics enhancements can be reviewed in the Release Notes section of the Reporting and Analytics page on the [USA Staffing Resource Center](#).
