Assessment Types by Vacancy Dashboard and Report

The Assessment Types by Vacancy Dashboard and the Assessment Types by Vacancy Report was modified. These reports show what assessment type(s) are used by vacancy to support agency reporting in response to E.O. 13932, Modernizing and Reforming the Assessment and Hiring of Federal Job Candidates. The reports were updated to include additional categories for the type(s) of assessments used that incorporate the new SME Evaluation assessment type within USA Staffing. The Assessments by Vacancy page within the reports were also updated to include new columns related to SME Evaluation assessments, hurdles, questionnaire assessment methods, and USA Hire type. Finally, the reports were modified to include a new optional prompt to limit the report results to display data for vacancies where at least one certificate has been audited so that data on selection rates provide more meaningful information (i.e., vacancies that are not yet at the selection phase are excluded).
