OPM HR SOLUTIONS
by government, for government

Introduction

OPM employs agile IT development techniques in the development and maintenance of the USA Staffing system. This means we have the ability to update priorities through frequent, iterative releases based on changes in the hiring landscape or the identified needs of the collective customer base.

The USA Staffing Release Notes provide an overview of the most recent functionality deployed to the USA Staffing Stage and Production environments.

To learn more about features that already exist in USA Staffing and to review the upcoming release schedule for the USA Staffing Stage and Production environments, please visit the [USA Staffing Resource Center](#).

Completed System Functionality

The items outlined in this section include newly added functionality in the USA Staffing system. Examples of functionality found in this section can range from corrected issues within the system, changes that enhance the system’s performance, enhancements made to the user experience specific to existing features based on feedback received, or new functionality that improves the system’s already robust set of capabilities. As you review this section, you may see the following icon  which designates the completion of a feature that was previously identified in the Feature Backlog & Glossary on the [USA Staffing Resource Center](#).

Staffing Functionality

Requests

- Updated the names of the following request statuses for clarity:
 - From *Request Failed* to *Request Cancelled - Request Failed*
 - From *Request Not Filled* to *Request Cancelled - Request Not Filled*
 - From *Alternate Selection Made* to *Request Cancelled - Alternate Selection Made*
- Removed the ability to create or approve an additional request on expired or cancelled vacancies created through USA Staffing. In these instances, the *Create Additional Request* or the *Show Un-approved Requests* buttons will not display.

Announcement

- Updated the *Promotion Potential* field to allow a grade lower than the grade(s) included in the announcement. Users will be presented with a warning validation message upon release.

Assessment Package

- Defaulted the *Competency Status* dropdown Published status. HR users are still be able to select other statuses to search for if needed.

Assessment

- Added a Checklist page when creating an Assessment Questionnaire within an Assessment Package or Assessment Package Template. This allows users to verify all required validations are met directly from the assessment.

Applicant Record

- Updated the *Late Filer Application Submitted* alert to include a link, which redirects users to the Eligibilities and Ratings page for the specific applicant record.

Reviews

- Updated the *Requests* section within a review to allow users to select multiple requests at once when accessing the *Add Request* button. When more than one request is available, a 'select all' checkbox will be displayed on the top row.
- Applicant List review followers will be notified via email each time an individual selection is returned to HR for a review in which they are designated as a *Follower*.

USA Hire Functionality

- USA Staffing will trigger an automatic helpdesk ticket for every applicant who requested a reasonable accommodation (RA) for the online assessments and whose claim needs to be adjudicated. The OPM team RA team will communicate with the applicant via this ticket to obtain the needed information to verify their claim.
- The USA Hire system notifications have been updated to:
 - Replace references to the helpdesk@usahire.opm.gov email address with a link to a new helpdesk ticket submission form where an applicant can request assistance with a USA Hire or RA inquiry.
 - Replace references to the RA team email address with language instructing RA applicants to communicate with the RA team via their helpdesk ticket email.

Reporting and Analytics

- Reporting and analytics enhancements can be reviewed in the Release Notes section of the [Reporting and Analytics](#) page on the [USA Staffing Resource Center](#).
