Scheduled System Downtime

When:

- Starting Wednesday, June 22nd at 8:00 AM (ET)

Why:

- OPM will be carrying out the next steps in the process to implement reporting system maintenance and infrastructure enhancements.
- The Cognos program will be migrated to the new hosting environment
- Cognos reports and APIs will be directed to the data warehouses in the new hosting environment.
- Additional steps are required to fully migrate the reporting function. A notice will be provided for any required downtime.

What this means for you:

- During this downtime, the following will be unavailable:
 - Cognos reporting
 - USA Staffing APIs

Launch of the Applicant Flow Data Warehouse

We have **redesigned and rebuilt** applicant flow data reporting to exist in a new data package. The Applicant Flow Data Warehouse (AFDW) was deployed to Production on May 20, 2022.

Goals

Simplicity of Design – make it as easy and intuitive as possible to create and use reports

Faster Loading – reduce load time significantly, freeing up reporting resources for other data sources

Incorporate Enhancement Requests – address most, if not all enhancement requests in the backlog

Design with Power BI in mind – consider the capabilities of Power BI in designing the requirements

Launch of the Applicant Flow Data Warehouse

A series of job aids has been developed to support adoption of the AFDW as the source for applicant flow reporting.

Job Aids

Application Metrics for Applicant Flow – describes and discusses how to use data items in the Applicant Flow query subject

Application Metrics for Demographics – describes and discusses how to use data items in the Disability, Ethnicity and Race, and Sex query subjects

Metrics Dates – describes and discusses how to use data in the Application Metric Date and Vacancy Metric Date query subjects

Standard Reports – describes and discusses use cases for the standard reports available for applicant flow reporting

Vacancy Metrics for Applications – describes and discusses how to use data items related to applications and flow in the Vacancy Metric query subject

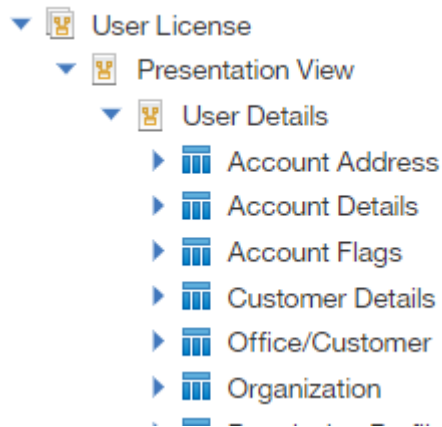

Vacancy Metrics for Certificates – describes and discusses how to use data items related to certificates in the Vacancy Metric query subject

Recruitment Data Warehouse Retirement

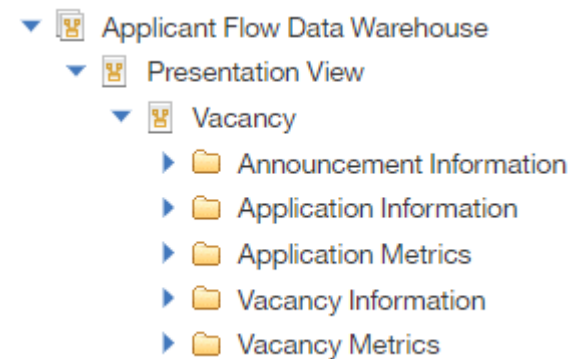

The Recruitment Data Warehouse supports the Staffing Analytics and Applicant Flow Data Analytics data packages.

RDW was retired as of May 31, 2022

HDW Reports

New/Modified Reports

Workload Assignments Report – deployed May 25th

The Workload Assignments Report was created. This report provides tabular data showing the status of workload assignments to help HR users manage applicant reviews.

- Team Content > USA Staffing Packages and Folders > Hiring Data Warehouse > Application

AFDW Reports

New/Modified Reports

Applicant Flow Vacancy-Level Detail – deployed May 20th

The Applicant Flow Vacancy-Level Detail report was created. This report provides detailed data related to applicant responses to ethnicity/race, sex, and disability demographic questions in the USAJOBS job seeker profile as well as applicant progress through the staffing process at the vacancy level (i.e., across all rating combinations). Information gathered from this report can be aggregated to respond to MD-715 reporting requirements or to complete other Applicant Flow Data analyses.

- Team Content > USA Staffing Packages and Folders > Applicant Flow Data > Applicant Flow Data Warehouse

MD-715 A Tables – MCOs by Race, Ethnicity, and Sex – deployed May 20th

The MD-715 Tables – MCOs by Race, Ethnicity, and Sex report was created. This report provides summarized applicant responses to ethnicity/race and sex demographic questions in the USAJOBS job seeker profile to respond to the MD-715 requirements for the “A” tables (Mission Critical Occupations Distribution by Race, Ethnicity, and Sex).

- Team Content > USA Staffing Packages and Folders > Applicant Flow Data > Applicant Flow Data Warehouse

AFDW Reports

New/Modified Reports

MD-715 B Tables – MCOs by Disability – **deployed May 20th**

The MD-715 Tables – MCOs by Disability report was created. This report provides summarized applicant responses to disability questions in the USAJOBS job seeker profile to respond to the MD-715 requirements for the “B” tables (Mission Critical Occupations Distribution by Disability).

- Team Content > USA Staffing Packages and Folders > Applicant Flow Data > Applicant Flow Data Warehouse

API Updates

USA Staffing Data APIs

Developer Platform Data Definitions – **deployed May 25th**

The API Developer Platform's Data Definition page was updated for all data items that are strings. Those data items now include string length in their definition.

Assessment

API Entity	Data Item	Definition
Assessment	tenantId <i>int (required)</i>	The database ID column associated to a tenant.
Assessment	assessmentId <i>long (required)</i>	The database ID column associated to the assessment.
Assessment	assessmentName <i>string (124)</i>	The name of an assessment within an assessment package.
Assessment	assessmentType <i>string (500)</i>	The type of assessment (e.g., Questionnaire, External Assessment).
Assessment	owner <i>string (required) (101)</i>	The name of the individual who created the assessment.

USA Staffing Data APIs

New Hire API – deployed May 25th

The New Hire API was updated to include a new column to enable reporting on the certificate number from which a new hire was selected.

- 'Certificate Number': The unique identifying number associated with a certificate
 - String (50)

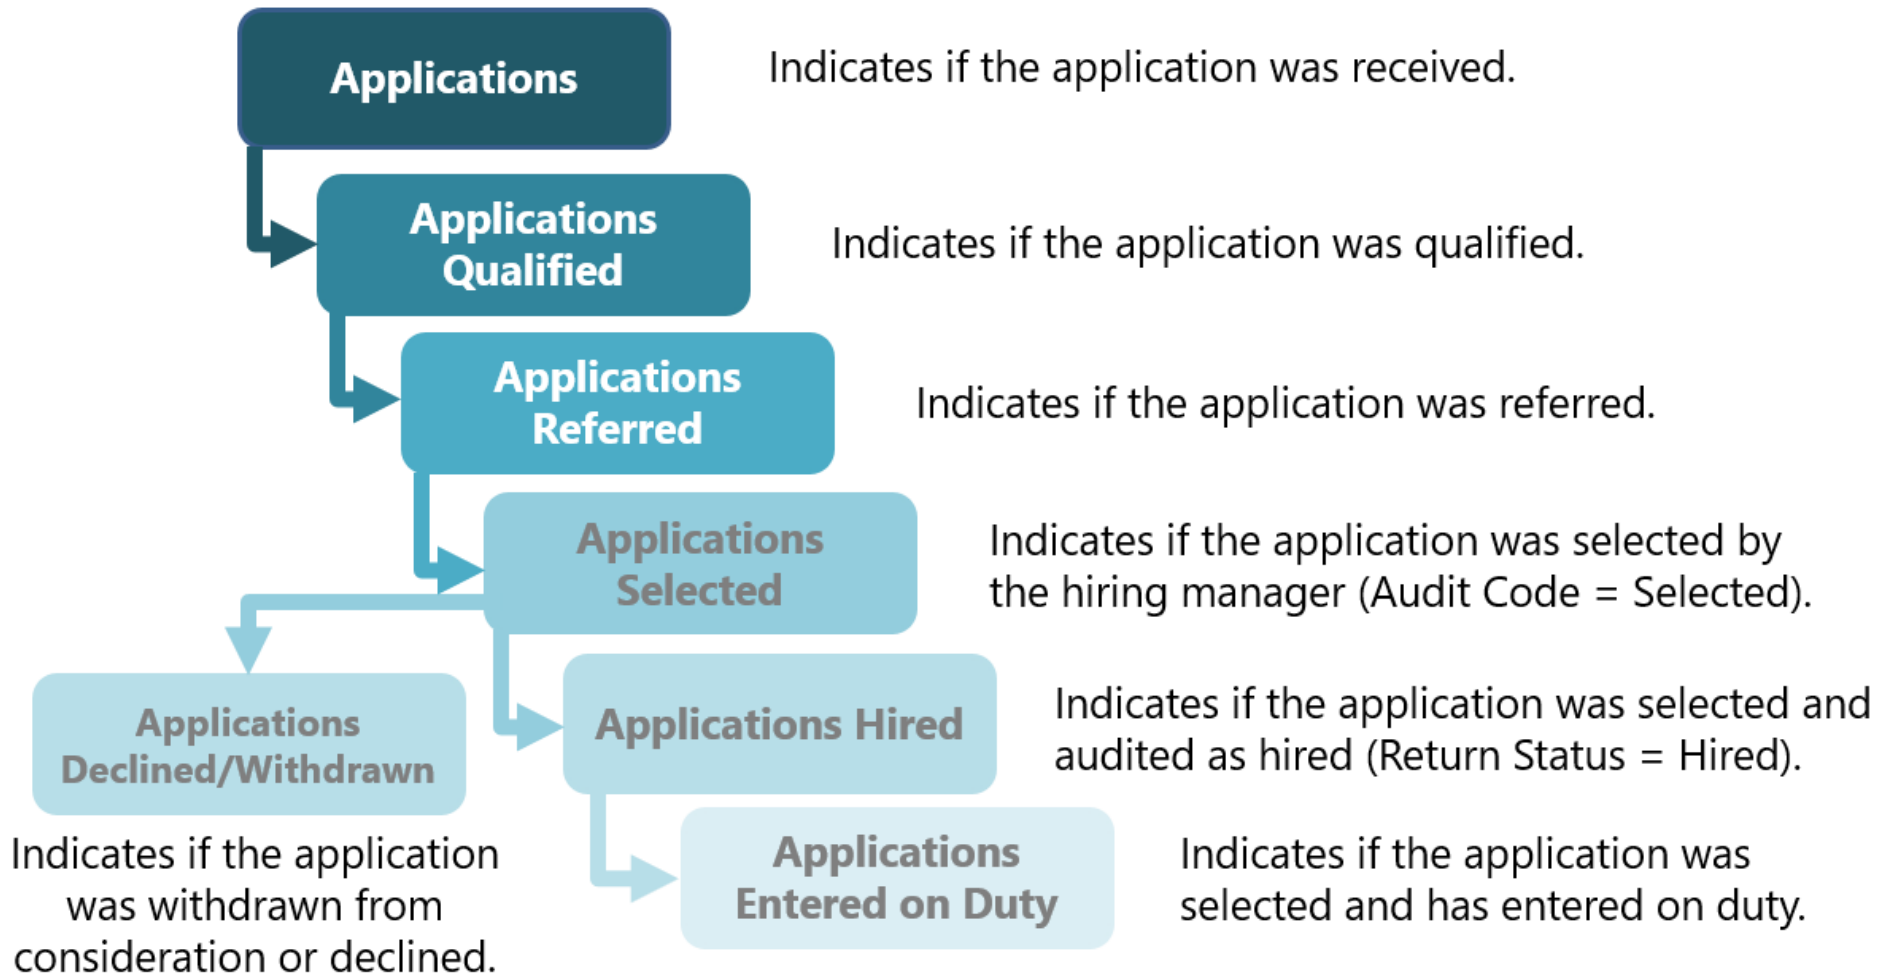

Cognos Tip

DW Metrics Refresher

Application Metrics

Metrics to enable reporting on the **applications through the hiring process by rating combination** (series-grade-specialty).

Application Metrics

Each metric uses **defined criteria** to determine the **progression** of an application **through the hiring process**.

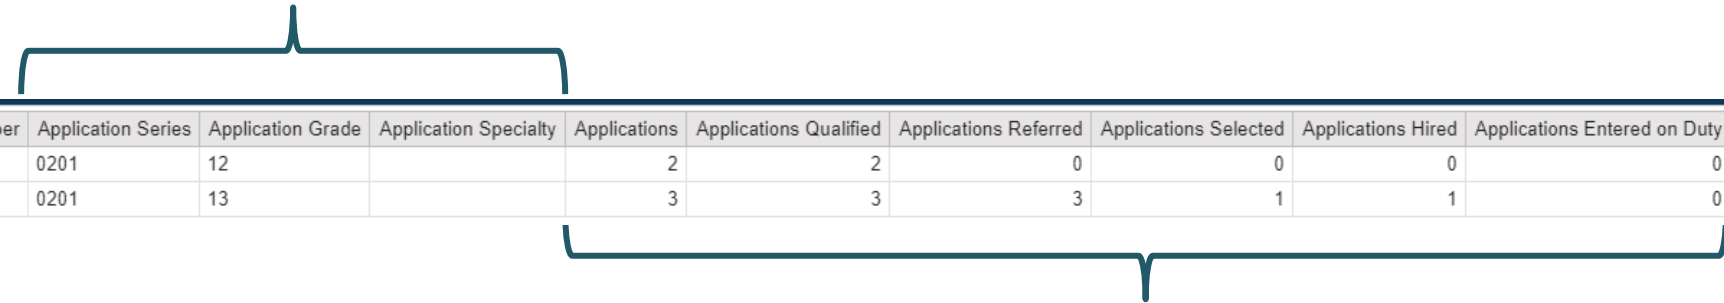

Application Metric	Criteria
Applications	Any Application Number that exists for the rating combination = 0; all else = 1.
Applications Qualified	Meets criteria for Applications + has a Notification Message Code that starts with "E" = 1; all else = 0.
Applications Referred	Meets criteria for Applications Qualified + is on at least one non-cancelled certificate for that rating combination = 1; all else = 0.
Applications Selected	Meets criteria for Applications Referred + has an audit code of "Selected" for the rating combination = 1; all else = 0.
Applications Hired	Meets criteria for Applications Selected + has a return status of "Hired" for the rating combination = 1; all else = 0.
Applications Entered on Duty	Meets criteria for Applications Hired + has a new hire record where the Verify New Hire has Entered on Duty task has a status of "Complete" for the rating combination = 1; all else = 0.
Applications Declined/Withdrawn	Meets criteria for Applications + is on at least one non-cancelled certificate for that rating combination + has an audit code of "Withdrawn from Consideration", "Declined Position", "Declined Salary/Grade", "Declined Location", "Declined Interview/Assessment", "Declined During Negotiations", "Accepted Another Position with Agency", or "Failed to Reply" = 1; all else = 0.

Application Metrics

Application Metrics **must be used with application rating combination** query items and **can be used** with higher level query items (e.g., Vacancy Number, Staffing Office Name, Staffing Organization Name).

Application Rating Combination

Vacancy Number	Application Series	Application Grade	Application Specialty	Applications	Applications Qualified	Applications Referred	Applications Selected	Applications Hired	Applications Entered on Duty
10000041	0201	12		2	2	0	0	0	0
10000041	0201	13		3	3	3	1	1	0

Metrics automatically summarize for each rating combination

*If used without application rating combination query items, each metric will automatically summarize based on the lowest level included. Because a single application could be for multiple rating combinations, this may result in inaccurate data.

Application Metrics

When used with the **Application Number** query item, **metrics will display as 0s or 1s**, enabling the **tracking** of a single application **through the hiring process**.

Vacancy Number	Application Number	Application Series	Application Grade	Application Specialty	Applications	Applications Qualified	Applications Referred	Applications Selected	Applications Hired	Applications Entered on Duty
10000041	A3385-5955	0201	12		1	1	0	0	0	0
10000041	A3385-5955	0201	13		1	1	1	1	1	0
10000041	A4341-3650	0201	13		1	1	1	0	0	0
10000041	A8933-7881	0201	12		1	1	0	0	0	0
10000041	A8933-7881	0201	13		1	1	1	0	0	0

For example, Application Number A3385-5955 applied to and was qualified for both the 12 and 13 grade levels but was only referred for grade 13. They were then selected and hired at grade 13 but they have not yet entered on duty.

Application Metrics

Metrics **can be used** with **other query items** from the **Applications** area.

Veterans Preference (can use Claimed and/or Adjudicated)

Vacancy Number	Application Series	Application Grade	Application Specialty	Veterans Preference Claimed	Applications	Applications Qualified	Applications Referred	Applications Selected	Applications Hired	Applications Entered on Duty
10000041	0201	12		NV	2	2	0	0	0	0
10000041	0201	13		CPS	1	1	1	0	0	0
10000041	0201	13		NV	2	2	2	1	1	0

Claimed Eligibilities*

Vacancy Number	Application Series	Application Grade	Application Specialty	Claimed Eligibility	Applications	Applications Qualified	Applications Referred	Applications Selected	Applications Hired	Applications Entered on Duty
10000041	0201	12		Agency Employees	1	1	0	0	0	0
10000041	0201	12		Reinstatement	2	2	0	0	0	0
10000041	0201	12		Transfer	2	2	0	0	0	0
10000041	0201	13		Agency Employees	1	1	1	1	1	0
10000041	0201	13		Reinstatement	3	3	3	1	1	0
10000041	0201	13		Transfer	3	3	3	1	1	0

Locations*

Vacancy Number	Application Series	Application Grade	Application Specialty	Application Location Description	Applications	Applications Qualified	Applications Referred	Applications Selected	Applications Hired	Applications Entered on Duty
10000041	0201	12		Washington DC, DC United States	2	2	0	0	0	0
10000041	0201	13		Washington DC, DC United States	3	3	3	1	1	0

*Keep in mind that a single application can claim multiple eligibilities and/or apply to multiple locations, so totals across rows may exceed total number of applications.

Application Metrics

Metrics **CANNOT** be used with **query items** from the **Certificates** area.

Application Series	Application Grade	Application Specialty	Certificate Number	Certificate Application Number	Certificate Application Audit Code	Certificate Application Return Status	Applicant Name	Certificate Application Last Name	Certificate Application First Name	Applications	Applications Qualified	Applications Referred	Applications Selected	Applications Entered on Duty
0203	7		20200731-JJWH-003	A49RY-C7Z9	Selected	Hired	Man, Spider T	Stark	Tony	1	1	1	0	0
0203	7		20200731-JJWH-003	A49RY-C7Z9	Selected	Hired	Man, Super	Stark	Tony	1	0	0	0	0
0203	7		20200731-JJWH-003	A49RY-C7Z9	Selected	Hired	Quinn, Harley	Stark	Tony	1	1	1	0	0
0203	7		20200731-JJWH-003	A49RY-C7Z9	Selected	Hired	Stark, Tony I	Stark	Tony	1	1	1	1	0
0203	7		20200731-JJWH-003	A49RY-C7Z9	Selected	Hired	Wayne, Bruce	Stark	Tony	1	1	1	1	0
0203	7		20200731-JJWH-003	A49RY-C7Z9	Selected	Hired	White, James A	Stark	Tony	1	1	1	0	0

There is no direct relationship between the Applications area and the Certificates area, so while data will return, data from the two area will be jumbled.

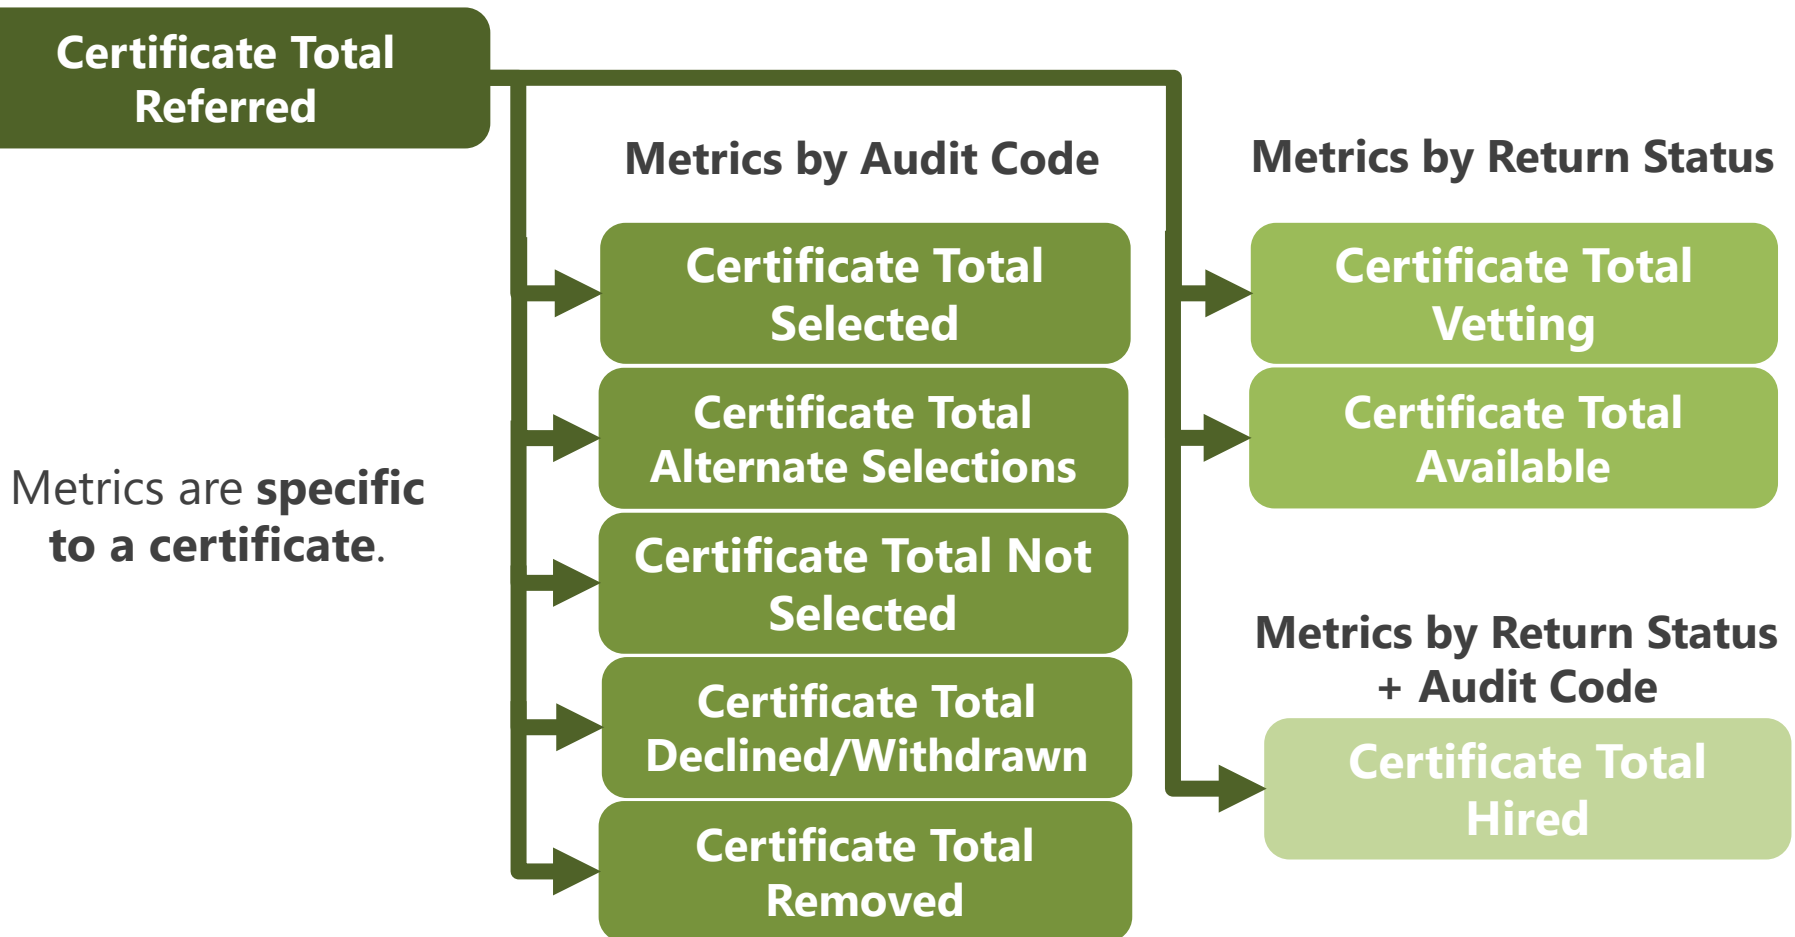

Name	Rating	Vet Pref	Audit Code	Return Status
Man, Spider TobeMcGuire	79	NV - No Preference Claimed	Not Selected	Available
Quinn, Harley	97	NV - No Preference Claimed	Not Selected	Available
Stark, Tony Ironman	100	NV - No Preference Claimed	Selected	Hired
Wayne, Bruce	99	CP -10-point preference based on a compensable service-connected disability of 10 percent or more, but less than 30 percent	Selected	Hired
White, James Archibald	93	NV - No Preference Claimed	Not Selected	Available

If data about referred applicants or applications is needed, use query items from the Certificate Applicants and/or Certificate Applications query subjects.

Certificate Metrics

Metrics to enable reporting on the **total number of applications referred** and **total number of unique applications in various statuses** on the basis of return status, audit code, and/or veterans status.

Certificate Metrics

Each metric uses **defined criteria** to determine the **status of applications** on a **specific** certificate.

Certificate Metric	Criteria
Certificate Total Referred	Count of the unique applications referred on a certificate.
Certificate Total Selected	Count of the unique applications referred on a certificate where the audit code is Selected.
Certificate Total Vetting	Count of the unique applications referred on a certificate where the return status is Vetting.
Certificate Total Hired	Count of the unique applications referred on a certificate where the audit code is Selected and return status is Hired.
Certificate Total Alternate Selections	Count of the unique applications referred on a certificate where the audit code is Alternate Selection.
Certificate Total Not Selected	Count of the unique applications referred on a certificate where the audit code is Not Selected, Selected on a Different Certificate, or Not Selected Pending Passover Approval.

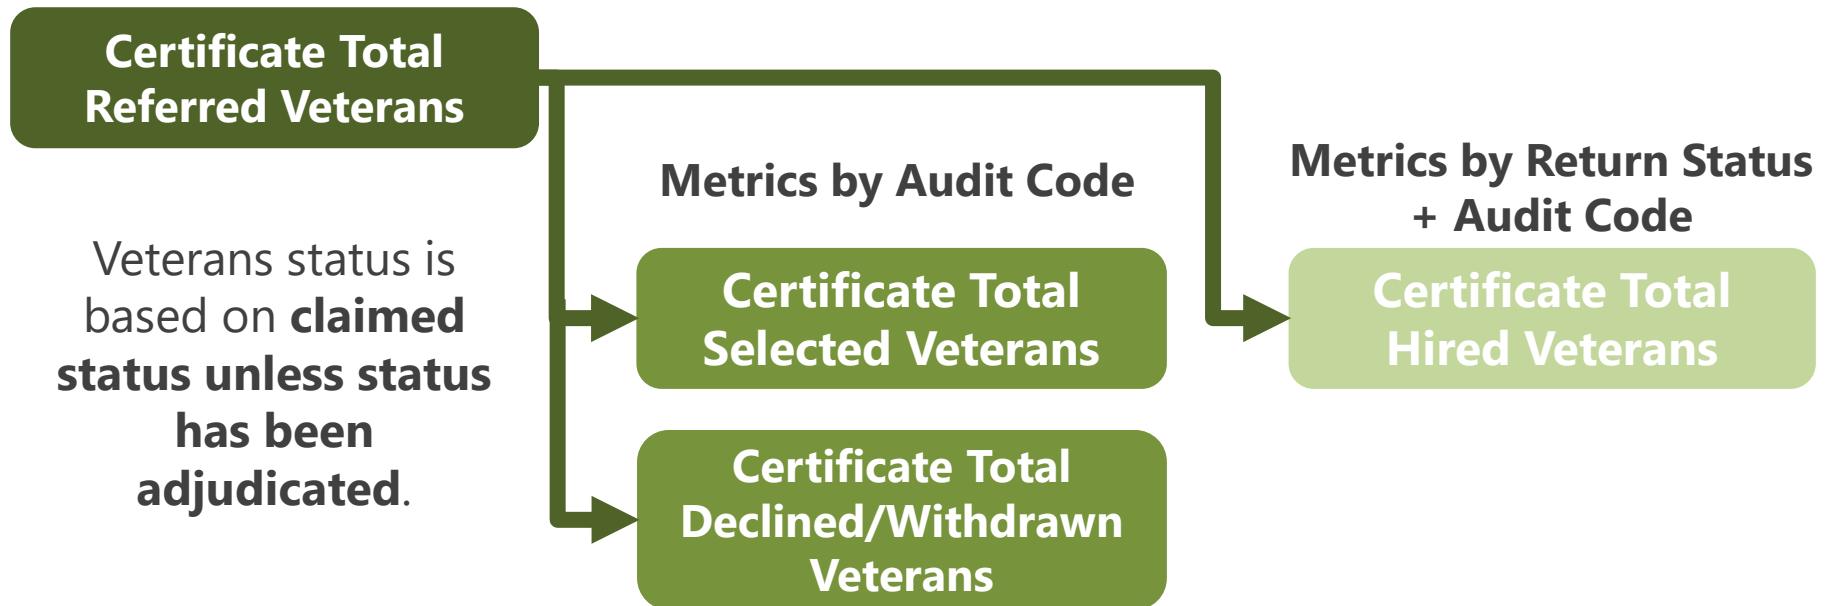

Certificate Metrics

Certificate Metric	Criteria
Certificate Total Declined/Withdrawn	Count of the unique applications referred on a certificate where the audit code is Withdrawn from Consideration, Declined Position, Declined Salary/Grade, Declined Location, Decline Interview/Assessment, Declined During Negotiations, Accepted Another Position with Agency, or Failed to Reply.
Certificate Total Removed	Count of the unique applications referred on a certificate where the audit code is Removed from Consideration, Removed – Current Employee, Removed – Drug Test, Removed – Security, Removed – Suitability, Removed – Qualifications, or Removed – Medical.
Certificate Total Available	Count of the unique applications referred on a certificate where the return status is Available.

Certificate Metrics for Veterans

Metrics to enable reporting on the **total number of veteran applications referred** and **total number of unique applications in various statuses** on the basis of return status and/or audit code.

If the vacancy is not set to collect veterans preference information, each metric will be 0.

Certificate Metrics for Veterans

Each metric uses **defined criteria** to determine the **status of veteran applications** on a **specific** certificate.

Certificate Metric	Criteria
Certificate Total Referred Veterans	Count of the unique applications referred on a certificate where veterans preference is not NV or NP.
Certificate Total Selected Veterans	Count of the unique applications referred on a certificate where veterans preference is not NV or NP and the audit code is Selected.
Certificate Total Hired Veterans	Count of the unique applications referred on a certificate where veterans preference is not NV or NP, the audit code is Selected, and the return status is Hired.
Certificate Total Declined/ Withdrawn Veterans	Count of the unique applications referred on a certificate where veterans preference is not NV or NP and the audit code is Withdrawn from Consideration, Declined Position, Declined Salary/Grade, Declined Location, Decline Interview/Assessment, Declined During Negotiations, Accepted Another Position with Agency, or Failed to Reply.

For all metrics, if veterans preference has not been adjudicated, claimed preference is used. If veterans preference has been adjudicated, adjudicated preference is used. If the vacancy is not set to collect veterans preference, these metrics will be 0.

Certificate Metrics

Certificate Metrics **must be used** with the Certificate Number query item and **can be used** with other certificate-level query items (i.e., other query items in the Certificate query subject).

*When adding query items, always consider if the relationship is one-to-one, one-to-many, or many-to-many with a certificate to determine if the query item is at a higher, same, or lower level. If the relationship is not one-to-one, metrics may be inflated or repeated.

Workload Metrics

Metrics to enable reporting on the **number of certificates in various states** on the basis of certificate status, audited status, and veteran referrals.

Workload Metrics

Each metric uses **defined criteria** to determine the **state of certificates**.

Workload Metric	Criteria
Issued Certificates	Count of the unique certificates issued.
Cancelled Certificates	Count of the unique certificates that have been cancelled.
Audited Certificates	Count of the unique certificates where the audit complete checkbox/toggle is enabled.
Audited Certificates with Veterans	Count of the unique certificates where the audit complete checkbox/toggle is enabled and at least one veteran was referred.
Audited Certificates without Veterans	Count of the unique certificates where the audit complete checkbox/toggle is enabled and no veterans were referred.
Audited and Used Certificates	Count of the unique certificates where the audit complete checkbox/toggle is enabled and at least one application was selected (i.e., Audit Code = Selected).
Audited and Used Certificates with Veterans	Count of the unique certificates where the audit complete checkbox/toggle is enabled, at least one veteran was referred, and at least one application was selected (i.e., Audit Code = Selected).

Workload Metrics

Each metric uses **defined criteria** to determine the **state of certificates**.

Workload Metric	Criteria
Audited and Used Certificates without Veterans	Count of the unique certificates where the audit complete checkbox/toggle is enabled, no veterans were referred, and at least one application was selected (i.e., Audit Code = Selected).
Audited and Unused Certificates	Count of the unique certificates where the audit complete checkbox/toggle is enabled and no applications were selected.
Audited and Unused Certificates with Veterans	Count of the unique certificates where the audit complete checkbox/toggle is enabled, at least one veteran was referred, and no applications were selected.
Audited and Unused Certificates without Veterans	Count of the unique certificates where the audit complete checkbox/toggle is enabled, no veterans were referred, and no applications were selected.

For metrics referencing veterans, if veterans preference has not been adjudicated, claimed preference is used. If veterans preference has been adjudicated, adjudicated preference is used. If a vacancy is not set to collect Veterans Preference, all metrics referencing veterans will be 0.

Workload Metrics

Workload Metrics **can be used** with **certificate-level or higher** query items (i.e., query items in the Certificate query subject). At the certificate level, all metrics will be 0 or 1.

Vacancy Metrics

Metrics to enable reporting on the **progression of an applicant** through the hiring process **at the vacancy level and above**.

All Applications

Metrics are **not specific to the rating combination** and provide a status of the application at the vacancy level.

Vacancy Metrics

Each metric uses **defined criteria** to determine the **progression of an applicant** through the hiring process **at the vacancy level**.

Vacancy Metric	Criteria
Total Applications	Count of the unique applications received for a vacancy.
Total Eligible Applications	Count of the unique applications received for a vacancy where the application record status code is AA, AC, or HH.
Total Ineligible Applications	Count of the unique applications received for a vacancy where the application record status code is IN or EX.
Total Pending Applications	Count of the unique applications received for a vacancy where the application record status code is PA, PI, or PS.
Total Suspended Applications	Count of the unique applications received for a vacancy where the application record status code is SS.
Total Unavailable Applications	Count of the unique applications received for a vacancy where the application record status code is UN.
Total Referred Applications	Count of the unique applications received for a vacancy where the application was referred on at least one non-cancelled certificate.

Vacancy Metrics

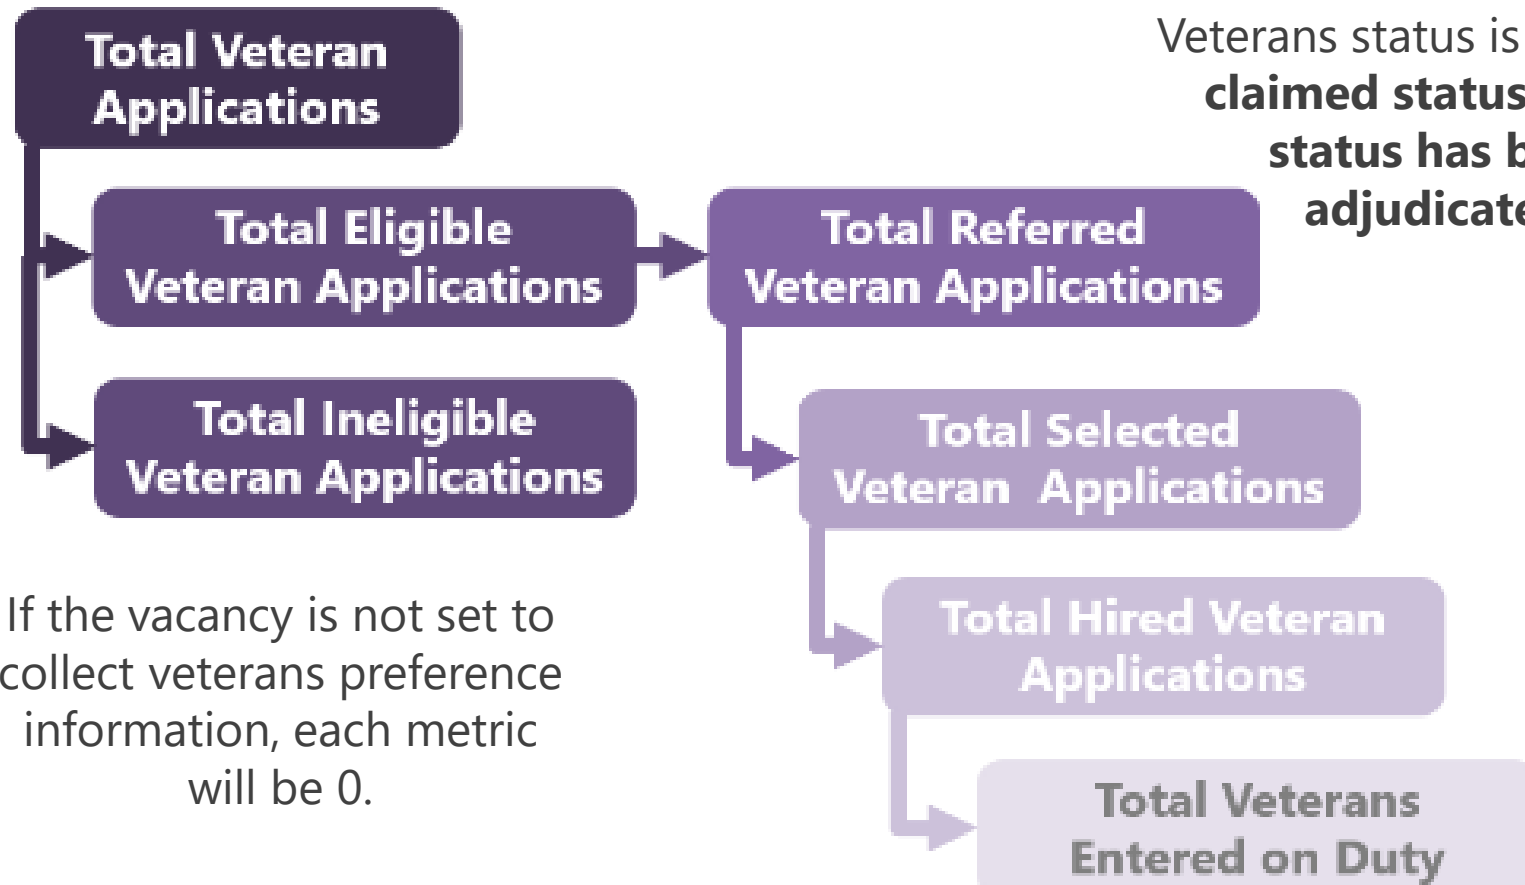

Vacancy Metric	Criteria
Total Selected Applications	Count of the unique applications received for a vacancy where the audit code on at least one non-cancelled certificate is "Selected."
Total Hired Applications	Count of the unique applications received for a vacancy where the audit code is "Selected" and the return status is "Hired" on at least one non-cancelled certificate.
Total Declined/Withdrawn Applications	Count of the unique applications received for a vacancy where the audit code is "Withdrawn from Consideration", "Declined Position", "Declined Salary/Grade", "Declined Location", "Declined Interview/Assessment", "Declined During Negotiations", "Accepted Another Position with Agency", or "Failed to Reply" for at least one rating combination.
Total Entered on Duty	Count of the unique applications received for a vacancy where a new hire record exists and the Verify New Hire has Entered on Duty task has a status of "Complete."

Vacancy Metrics

Metrics to enable reporting on the **veteran applications to a vacancy** and their progress through the hiring process **at the vacancy level and above**.

Veteran Applications

Vacancy Metrics

Each metric uses **defined criteria** to determine the **progression of veteran applications** through the hiring process **at the vacancy level**.

Vacancy Metric	Criteria
Total Veteran Applications	Count of the unique applications received for a vacancy where veterans preference is not NV or NP.
Total Eligible Veteran Applications	Count of the unique applications received for a vacancy where veterans preference is not NV or NP and application record status code is AA, AC, or HH.
Total Ineligible Veteran Applications	Count of the unique applications received for a vacancy where veterans preference is not NV or NP and application record status code is IN or EX.
Total Referred Veteran Applications	Count of the unique applications received for a vacancy where veterans preference is not NV or NP and the application was referred on at least one non-cancelled certificate.

For all metrics, if veterans preference has not been adjudicated, claimed preference is used. If veterans preference has been adjudicated, adjudicated preference is used.

Vacancy Metrics

Each metric uses **defined criteria** to determine the **progression of veteran applications** through the hiring process **at the vacancy level**.

Vacancy Metric	Criteria
Total Selected Veteran Applications	Count of the unique applications received for a vacancy where veterans preference is not NV or NP and the audit code for the application is "Selected" on at least one non-cancelled certificate.
Total Hired Veteran Applications	Count of the unique applications received for a vacancy where veterans preference is not NV or NP and the audit code for the application is "Selected" and the return status is "Hired" on at least one non-cancelled certificate.
Total Veterans Entered on Duty	Count of the unique applications received for a vacancy where veterans preference is not NV or NP, a new hire record exists, and the Verify New Hire has Entered on Duty task has a status of "Complete."

Vacancy Metrics

Vacancy Metrics can be used with **vacancy-level and higher query items** (e.g., Vacancy Number, Staffing Office Name, Staffing Organization Name).

Staffing Organization Name	Staffing Office Name	Vacancy Number	Total Applications	Total Eligible Applications	Total Ineligible Applications	Total Pending Applications	Total Suspended Applications	Total Unavailable Applications

*When adding higher-level query items, always consider if the relationship is one-to-one, one-to-many, or many-to-many with a vacancy. If the relationship is not one-to-one, metrics may be inflated or repeated (e.g., if there is more than one Vacancy Customer for a single vacancy).

Vacancy Metrics

Metrics **can be used** with **other query items** from the **Vacancies** and other areas within the Hiring Data Warehouse.
