### Assessment Package

- Updated the system logic to ensure that when Categories are present on the Assessment Package Settings page, changing the Vacancy Position Information settings for the *USAJOBS Announcement Type* to remove the *Public (U.S. Citizens and Non-Citizens)* option will no longer update the Categories from *Final Score Cutpoint* to *None*.

### Applicant Overview

- Added a prompt when using the *Re-Rate Applicants* function from the gear icon on the Applicant Overview page, which states "You have initiated a re-rate of all applicants on this vacancy. Depending on the volume of applications and other re-rate actions initiated before this one, this action may take some time to complete." A *History* entry will also be logged to note the date/time and user who initiated the re-rate action.
