## Reporting and Analytics

### Hiring Data Warehouse

- Applications folder
  - Application Information sub-folder
    - Application query subject: a new query item was added to enable reporting on whether an applicant opted in to allow their application to be shared on a candidate inventory.
      - 'Candidate Inventory Opt-In?': Flag indicating if an applicant opted in to allow application sharing through candidate inventory.
- Assessment Packages folder
  - Assessment Information sub-folder
    - Assessment query subject: new query items were added to enable reporting on questionnaire assessment settings related to quality ranking factors and selective factors.
      - 'Quality Ranking Factor?': Flag indicating if the assessment includes a quality ranking factor.
      - 'Selective Factor?': Flag indicating if the assessment includes a selective factor.
- Vacancies folder
  - Vacancy Information sub-folder
    - Vacancy query subject: a new query item was added to enable reporting on whether candidate inventory is enabled for the vacancy.
      - 'Candidate Inventory Enabled?': Flag indicating if candidate inventory is enabled for the vacancy.

### USA Staffing Data APIs

The USA Staffing Data API team continues to add to the APIs available to pull bulk data sets from USA Staffing. For detailed information about each API. Including data definitions, visit <https://developer.usastaffing.gov>.

- The following APIs were updated to use a fixed snapshot string determining which database snapshot the API will query against. The new snapshot value rotates between SS1 and SS10.
  - New Hires API
  - Offices API
  - Onboarding Tasks API
  - Organizations API
  - Vacancies API
- The New Hires API was updated to include an additional column for Supervisor/Manager Email.
