# Applicant Flow Data Business Rules

AFD is made available to users only if the vacancy is inactive, defined by these two conditions:

- ✓ **The announcement is not currently open**
- ✓ **All certificates for a vacancy are audited**

If either of these conditions is not met, AFD will not be visible to users.

Additionally, if a previously inactive vacancy becomes active (e.g. the announcement is re-opened, an additional cert is issued, or a cert is un-audited), AFD for that vacancy will no longer be visible

- Announcement Opens
- People apply for the job
- Announcement Closes ✓

- Certificates Issued to Hiring Manager
- Hiring Manager makes Selections
- HR reviews and audits all certs ✓

- Inactive vacancies are added to the AFD dataset nightly

# Data Access: Future State

## Access

Users with an active USA Staffing account **can** have access to AFD

- Business rules for use of AFD and conditions for data to be available for reporting will remain the same.
- Rules of Behavior will be updated to reflect the change to allow Staffing users to have access to AFD
- The Applicant Flow Data Only user type will be phased out of USA Staffing
  - These users will need to be set up as a different user type (e.g., Reports Only)
  - Users will be provided with instructions and timeline well in advance of the retirement of the Applicant Flow Data Only user type

The screenshot shows a web interface titled "Account Details". It contains two input fields: "Date Account Created" with the value "9/12/2014 13:11 EDT" and "Date of Last Login" with the value "Human Resources User: 2/1/2019 10:46 EST". Below these fields is a checkbox labeled "Applicant Flow Data Access", which is circled in red.
