USA Staffing Data APIs

The USA Staffing Data API team continues to add to the APIs available to pull bulk data sets from USA Staffing. For detailed information about each API. Including data definitions, visit https://developer.usastaffing.gov.

- The following APIs were updated to use a fixed snapshot string determining which database snapshot the API will query against. The new snapshot value rotates between SS1 and SS10.

  - Staffing Tasks API
  - Time to Hire API

- The Certificate Applications API was updated to include an additional column for Certificate Application Originally Submitted Date/Time.

- A new sub-entity link for Vacancy Metrics was added to the Vacancies API to enable reporting on vacancy-level metrics (e.g., total applications, total declined/withdrawn applications).
